

Software Engineer

"We are looking for the independent thinkers, the fighters, the passionate, the creative, the defiant, and the determined! We hire for attitude and then for skill. If you are passionate about building Internet companies, we want to hear from you!"

APPLY NOW

Requirements

- Coder at heart. You like hard problems, but know how to keep things simple.
- Built applications with modern web frameworks for more than 4 years, ideally PHP.
- Good understanding of MVC, strong grasp of HTML5 and MySQL.
- Experience in various frameworks, including Laravel and Bootstrap.
- Motivated and reliable problem solver with go getter mind-set.
- Degree in a technical subject.
- Fluent in English.

Responsibilities

- Development of high-traffic sites and mobile apps with cutting edge technologies.
- Solve complex problems and support your team in a hands-on manner.
- Maintenance of our website and CRM system.
- Ensuring quality and enforcing best practices by communication and sharing with team members.

Benefits

- Relocation package including visa process and work permit, apartment searching and flight ticket support.
- Fostering of personal growth in a learning and resourceful environment.
- Easy-integration into a highly professional, international and passionate team.
- Competitive compensation package for living and working in Bangkok.
- Knowledge sharing from the best entrepreneurs and IT developers in the industry.
- An office in the heart of one of Asia's most international and lively cities.

About us

Rabbit Internet is a company builder and a venture arm of the BTS Group. We developed the unique Rabbit Internet Platform to bring growth to emerging Thai start-ups. We partner with entrepreneurs to build market leading Asian Internet companies and aim to serve the 600 million consumers in South East Asia by 2020.
