

System Administrator

"We are looking for the independent thinkers, the fighters, the passionate, the creative, the defiant, and the determined! We hire for attitude and then for skill. If you are passionate about building Internet companies, we want to hear from you!"

[APPLY NOW](#)

Requirements

- Some years of experience in the operations of in-house administration.
- Experienced with managing heterogeneous environments. Good command of at least one scripting language like PHP.
- Expert knowledge of Mac and PC administration (software installation, hardware maintenance), installing and maintaining network hardware (printers, cable installation, etc.), Windows server maintenance and general IT troubleshooting.
- Motivated and reliable problem solver with go getter mind-set.
- Degree in a technical subject.
- Fluent in English.

Responsibilities

- Troubleshooting, respond to inquiries and find solutions to technical challenges.
- Solve problems with multiple operating systems (like Windows, MacOS X, Linux Ubuntu).
- Solve problems with Windows server.
- Partner with various teams including telesales, IT and management.
- Support the IT needs of employees of varying technical backgrounds.

Benefits

- Relocation package including visa process and work permit, apartment searching and flight ticket support.
- Fostering of personal growth in a learning and resourceful environment.
- Easy-integration into a highly professional, international and passionate team.
- Competitive compensation package for living and working in Bangkok.
- Knowledge sharing from the best entrepreneurs and IT developers in the industry.
- An office in the heart of one of Asia's most international and lively cities.

About us

Rabbit Internet is a company builder and a venture arm of the BTS Group. We developed the unique Rabbit Internet Platform to bring growth to emerging Thai start-ups. We partner with entrepreneurs to build market leading Asian Internet companies and aim to serve the 600 million consumers in South East Asia by 2020.
